**PrimeEHS**™ was born out of Triazine's deep experience in serving clients across industries with complex safety and compliance requirements. After years of delivering tailored solutions, we understood the common challenges faced by businesses in managing compliance, safety protocols, and environmental impact. With this understanding, we set out to create a comprehensive software solution that not only addresses these challenges but also empowers organizations to foster a culture of safety and sustainability.

## Our Mission

We strive to provide innovative, user-friendly software that enables businesses to efficiently manage their EHS responsibilities while ensuring compliance with regulations.

## Our Vision

We aspire to create safer workplaces and healthier environments through cutting-edge technology and proactive management practices.

# Why PrimeEHS™?

## Comprehensive Solutions
Our software covers all aspects of EHS management, from incident reporting to compliance tracking, ensuring you have everything you need in one place.

## Dedicated Support
Our team of EHS experts is available to provide support and guidance, ensuring you get the most out of our software.

## User-Friendly Interface
Designed with the end-user in mind, our platform is intuitive and easy to navigate, reducing the learning curve for your team.

## Enhanced Team Collaboration
Simplify communication between teams with centralized data and workflows, ensuring everyone is on the same page..

## Mobile Accessibility
Access our platform anytime, anywhere with mobile compatibility, allowing your team to stay connected and informed on the go.

## Customizable Features
Tailor the software to fit your specific industry needs and regulatory requirements, making it adaptable for any organization.

# Core Benefits of EHS Innovation - Transforming Safety Through Technology

**PrimeEHS™**
Safety Ensured

## Enhanced Workplace Safety
Improves employee safety by identifying hazards, minimizing risks, and ensuring a safer work environment.

## Simplified Compliance Management
Makes it easier to meet legal and regulatory requirements through automated tracking and reporting.

## Reduces time and effort
Streamlines processes, reducing manual work and saving valuable time and resources.

## Increased Efficiency & Productivity
Optimizes workflows and resource usage, enabling teams to work faster and more effectively.

## Cost Saving
Lowers operational costs by minimizing incidents, reducing downtime, and avoiding compliance penalties.

## Data-Driven Decision Making
Uses real-time analytics and reports to support smarter, more informed business decisions.

# Incident Management & Reporting System(IMS)

PrimeEHS™
Safety Ensured
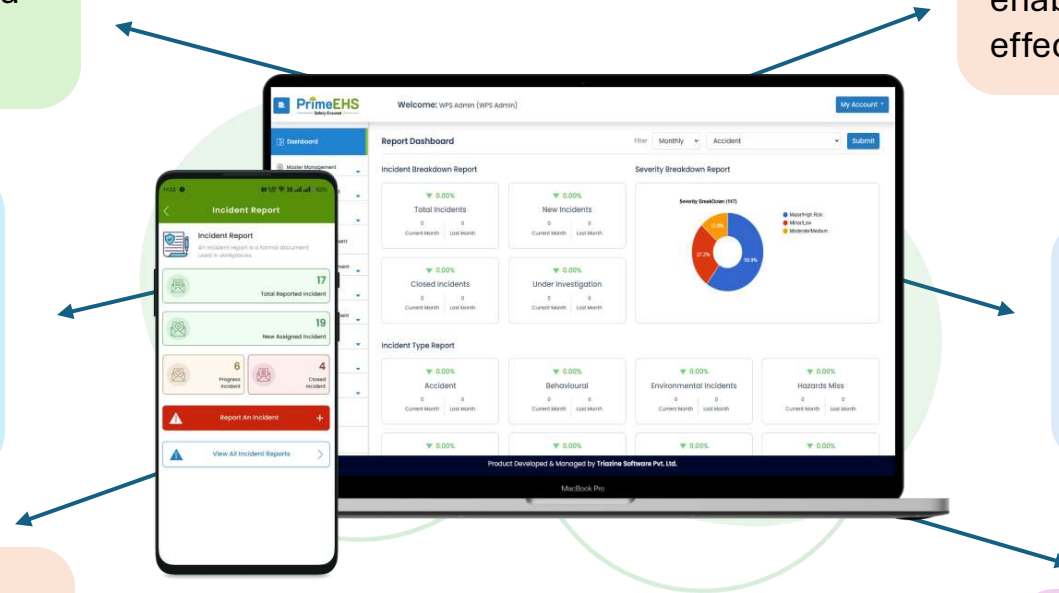

Effectively track, manage, investigate, and generate reports for incidents, accidents, and near-misses. Enables prompt reporting and analysis, fostering a proactive safety culture within the organization.
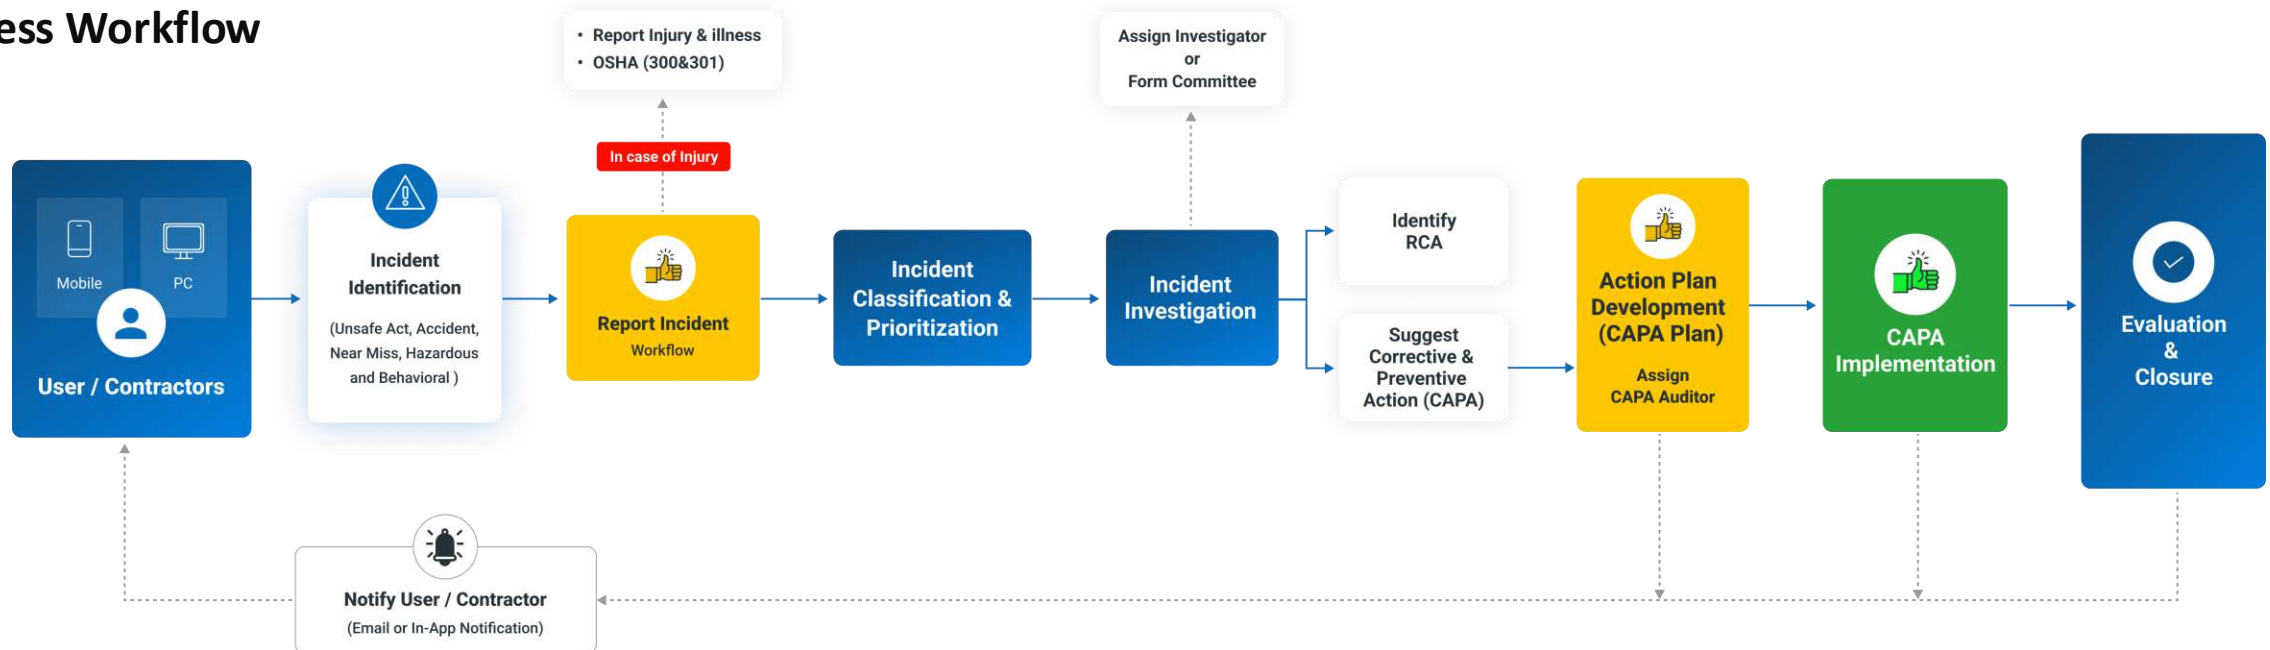

## Supported Incident Types

| Accident | Near Miss | Hazardous | Behavioral |
|----------|-----------|-----------|------------|

*and many more incidents...*

## Process Workflow

- Report Injury & illness
- OSHA (300&301)

In case of Injury

Assign Investigator or Form Committee

**Mobile** **PC**

**User / Contractors**

**Incident Identification**
(Unsafe Act, Accident, Near Miss, Hazardous and Behavioral )

**Report Incident** Workflow

**Incident Classification & Prioritization**

**Incident Investigation**

Identify RCA

Suggest Corrective & Preventive Action (CAPA)

**Action Plan Development (CAPA Plan)**
Assign CAPA Auditor

**CAPA Implementation**

**Evaluation & Closure**

**Notify User / Contractor**
(Email or In-App Notification)

# Permit to Work Management (PTW)

**PrimeEHS** ™
*Safety Ensured*

Streamline the process of authorizing and tracking permits for hazardous tasks, ensuring compliance and safety. Enable efficient planning a reducing potential workplace incidents and ensuring proper documentation for regulatory purposes.
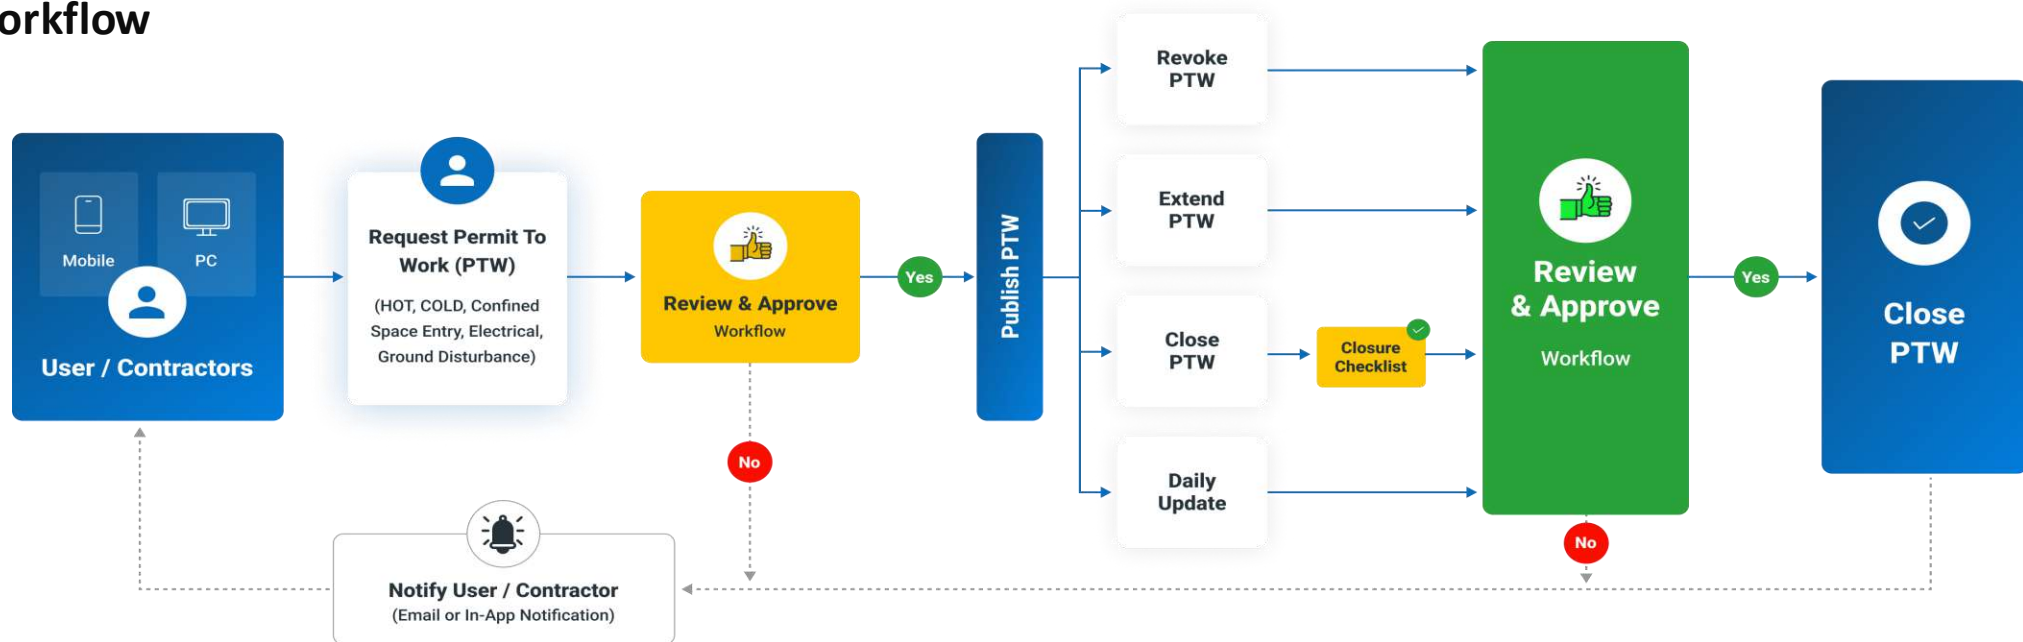

## Supported Permit Types

Notify User / Contractor (Email or In-App Notification)

# Learning & Management System (LMS)

Learning & Training can significantly enhance workplace safety by providing structured, accessible, and efficient training and management tools.
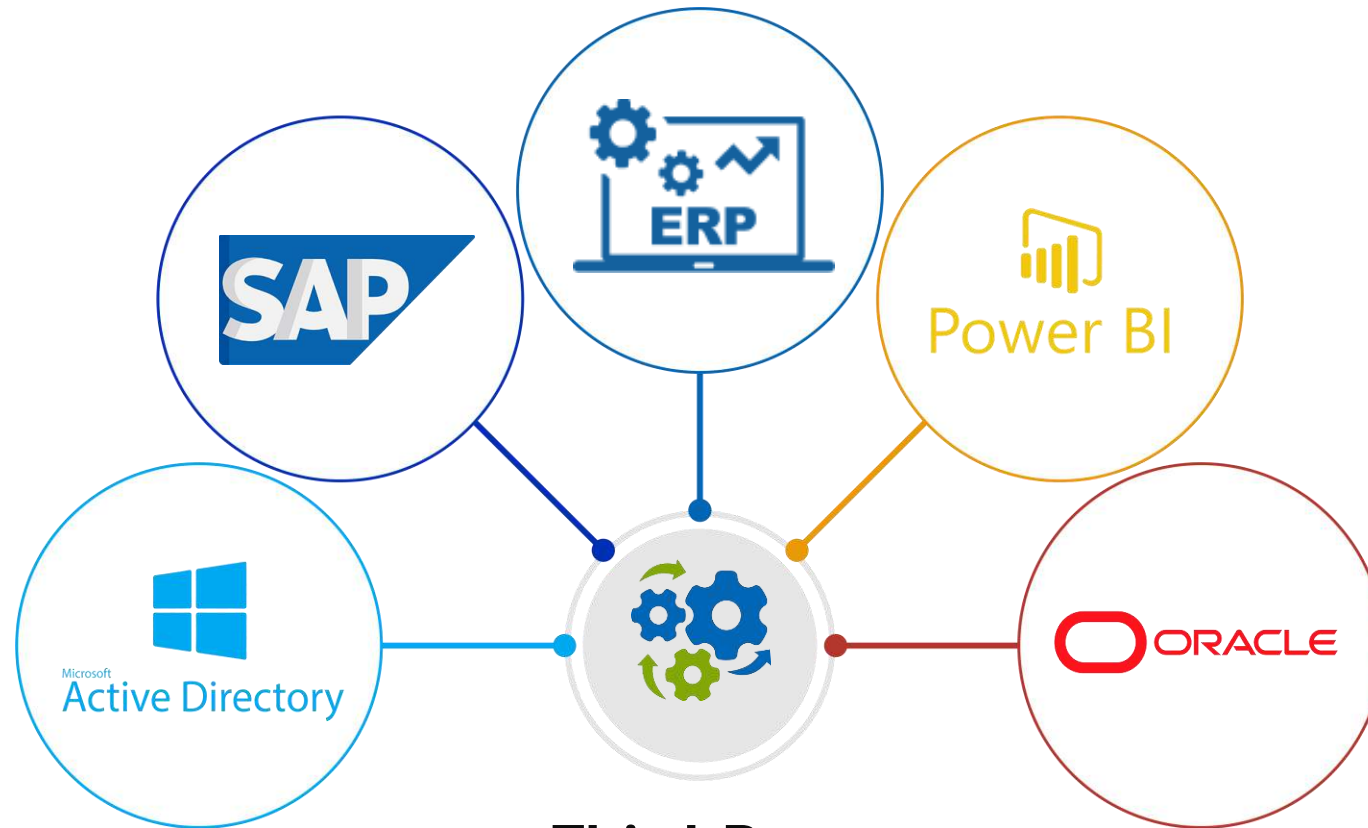

## LMS Features

| Course Management | Course Scheduling & Tracking | Assessment | Reporting and Analytics |
|---|---|---|---|

## Process Flow

- Assign courses to users
- Scheduling

**User / HOD** (Mobile / PC) → **Course Management** (Create Courses and Upload Learning Material) → **Course Assignment** Workflow → **Assessment** → **Progress Tracking and Reporting**

**Notify User / HOD** (Email or In-App Notification)

# Mobile App Benefits

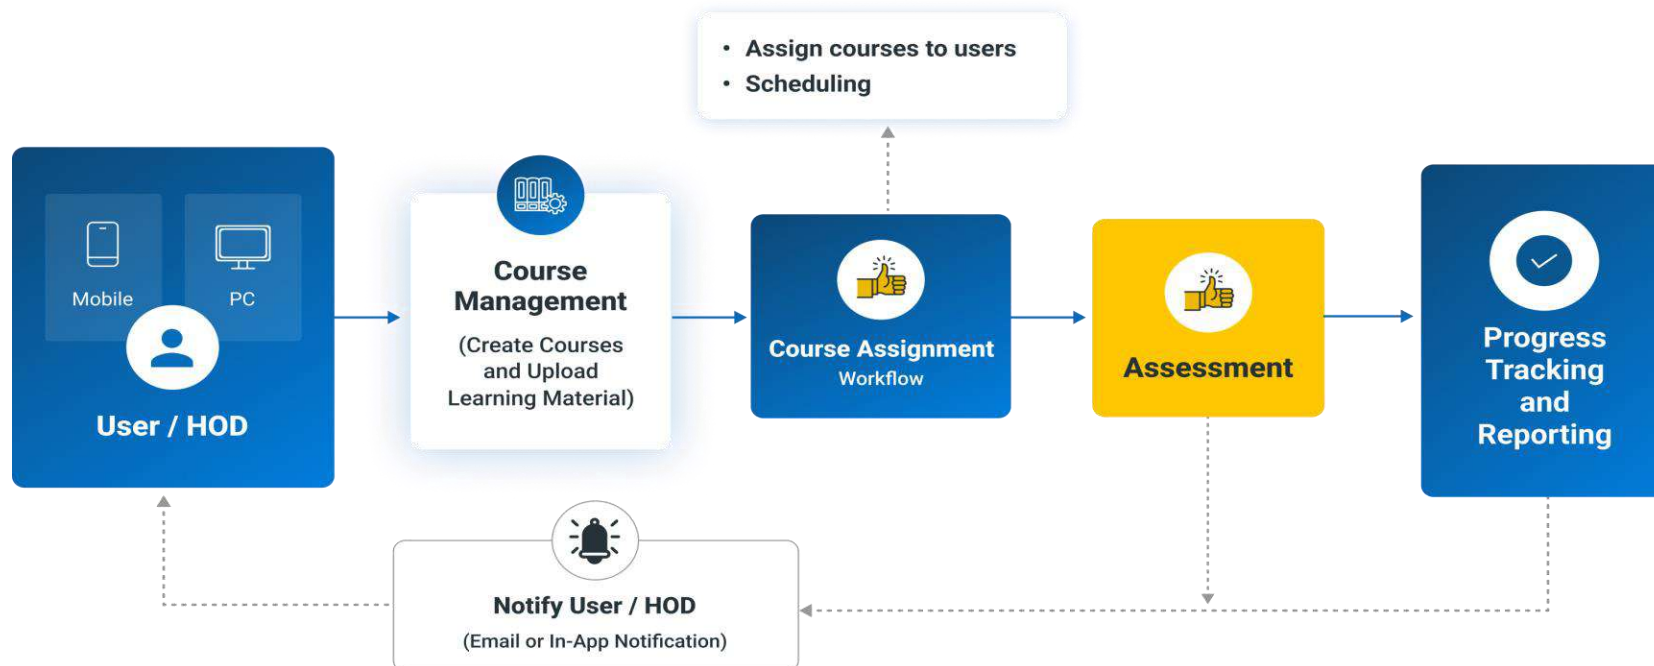

- ✓ **Reliable Accessibility**
  Ensures consistent and secure access to data and tools anytime, anywhere.

- ✓ **Offline Sync**
  Allows users to work without internet and automatically syncs data once reconnected.

- ✓ **Real-Time Data Access**
  Provides instant updates and visibility into current operations and performance.

- ✓ **On-the-Go Functionality**
  Enables users to perform tasks and access information via mobile devices while in the field or traveling.

- ✓ **Seamless Task Handling**
  Supports smooth execution of tasks with intuitive workflows and minimal interruptions.

- ✓ **Quick Response Time**
  Reduces delays by enabling fast processing and immediate action when needed.
